

VEDREINE

**Expert printers in flexible packaging
with or without aluminium suitable for food contact**

“Faced with the environmental issues, we have to innovate and invest constantly to be sustainable and create long-term industrial partnerships.”

Pierre Vedreine – CEO

Our commitments

72h commitment

Guaranteed by our stock. We can respond within three working days to any request, however urgent it may be.

Bestpoke service

Our employees have the equipment and the expertise to meet all your specific needs in printing techniques.

Certified quality

Our core business : food packaging means mandatory quality and irreproachable compliance with standards in place, certified every year.

Our values

Versatility

We mainly print on 7 to 70 μ alufoil and associated multilayer films, but also upon request on paper, film and all types of multilayer film that we produce or buy in.

Efficiency

We consume more than 50 million m² of print substrate every year.

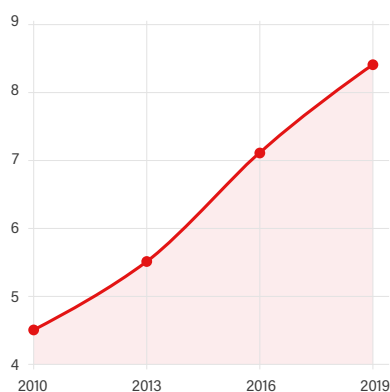

Flexibility

We can supply all types of customised packaging and specific cut-out for small, medium or large volumes.
